

## Pupil Voice Visit July 23

Children were asked how they felt about school and made the following comments:

The work was too hard at my last school. It's easier here and I enjoy the work

There were lots of bullies at my last school. I'm accepted here, made friends and my behaviour is better

Brain breaks are special

This school is 10/10, my last school was 1/10. This year has been better than the one before. I like the smaller classes, I'm not in as much trouble here

I've not been here long but I am in school full days. I look forward to coming to school, working towards targets and early bird work. I like stamps and golden awards.

I like choosing activities at playtime. At my last school we just went into the playground.

It's better than my last school, toast and playtimes are good. I feel safe.
